Introduction
Initiating recruitments in CHRS Recruiting involves completing the Job Card (also known as requisition) and submitting for approval and posting. This process will occur for all Staff and MPP positions. This guide will outline the steps to complete the Job Card, including which fields are required, which are optional, etc.
General Information

Recruiting for a New Position
You must have a position number in order to complete a Job Card. If you are recruiting for a new position you must obtain the position number before starting this process.
- New Staff/MPP Positions (no position number): Complete a Position Action Request (PAR) and submit it to the Budget Office via email at budget@sdsu.edu. Budget will create the position in PeopleSoft then the nightly process will push the information to CHRS Recruiting. At that time, you may start the process to complete the Job Card.

Position Description
An updated position description (PD) must be included on the job card. Use the recently revised PD in Google Doc format for easy collaboration. You will include the link to the PD in the Notes tab.

Search Committee
It is helpful to have your search committee identified prior to completing the Job Card. If the information is keyed upfront it will save time later in the process.

If one of your search committee members is not a current SDSU employee (faculty, staff or student), please contact your Recruiter as they will have to be set up in PeopleSoft then migrated to CHRS Recruiting in the overnight process.
Initiate Recruitments

Complete the Job Card

Log into CHRS Recruiting
1. Navigate to CHRS Recruiting
2. User your SDSUid and password to log in

The Dashboard is displayed

Please note, depending on your role the dashboard will look different. Two versions are shown here.

From the tiled dashboard, click New Job from the Jobs tile.

From the list dashboard, use the menu (shown in next step).
