Business Process Guide
Time & Labor – Student Employee Self-Service
Punch Time (For Dept ID 40111 – Library Only)
June 2018

**Introduction**

This guide provides step-by-step instructions for Time & Labor Self-Service (TLSS punch time), where student employees record, modify, and view their own Timesheet transactions.

- Quick Overview of “To Do” and “Not to Do” with Timesheet
  - Need your SDSUid and password to login to PeopleSoft to report your worked times.
  - If you have multiple jobs to select on your main timesheet page, please check with your supervisor/approver for the correct job to report your time on.
  - On the timesheet, View By option is important when you are hired in the middle of a pay period: You can select a time entry calendar by Day, Week or Time Period (month). Use the day or week option to enter your times.
  - It is important that you enter your time on a daily basis at the beginning (In) and end (Out) of each workday.
  - Must enter AM or PM (12-hour clock) for "In" and "Out" time
  - All hours worked for the previous pay period must be submitted by the 1st day of each month in order to ensure timely and accurate payroll processing and issuance of payroll warrants. Please refer to the Student Pay Day Schedule for deadline.   - Do not enter zeros on any days that you did not worked. Zeros required approval.
  - Do not enter times in the future (i.e. next day or next week)
  - Time for prior pay period cannot be entered via self-service, and must submit a late paper timesheet to T&L approver and required upper management approval.

If you have any questions or concerns regarding Time and Labor, please call your Payroll Services. • **Reported Time Worked**

8) Once you click on Timesheet, you will be able to report your time. This applies to student employees with one job record. See step #9 with multiple job records.

**It is important that you enter your time on a daily basis at the beginning (In) and end (Out) of each workday.**

All time must be submitted by the 1st day of the month after the end of the pay period.

9) Select the name of the appropriate job to begin reporting time.

Some student employees have more than one active job. Under these circumstances, multiple rows will display (see screen shot).

Questions as to which job Name to select? Contact your department Time and Labor Coordinator.

10) The Timesheet displays the following details in the header:

- Name
- ID
- Job Title
- Employee Record Number

Timesheet date ranges may be displayed in different ways by changing the defaults in the following pull down menus:

- **View By:** You can select the time entry calendar by Day, Week or Time Period (month).
- **Date:** The start date of the week/month can be changed by entering a new date and clicking the “Refresh” button.

- The following navigational links are also available:

**Previous Week/Next Week:** Use these links to quickly navigate to the previous or next time period.
**Timesheet:** Enter the time worked for each applicable date. Your "In" and "Out" time must be entered with AM or PM.

For example on 6/11, you begin working at 10:10 AM and leaving at 2:10 PM (see screen shot). Total hours is 4 hours.

On 6/13, you worked in two different timeframe or worked between classes. Must click on the plus icon to insert a row to add time.

**IMPORTANT! Do NOT enter zeros on any days that work was not performed. Leave the fields blank.**

- **Submit:** Click to submit your time.

Submit button is equal to signing your timesheet and certifies that you are reporting compliant and accurate time worked.
